## PROJECT EXPERIENCE

### STL Food Trucks — Food Truck Tracker & Directory

- Web application designed to connect food truck owners and customers, bridging the gap for mobile business with roaming locations.
- Daily feed of trucks' locations and serving times, with a directory of truck profiles. Truck profiles include social media links, logo and categories.
- Registered owners can add or remove upcoming events. Registered customers can add favorite trucks to their profile.
- Utilizes React/JSX, Java, Spring Boot, Spring Security, JWT and Bootstrap. Connected to an H2 database..

## WORK EXPERIENCE

### Web Designer — Independent Contractor

March 2010 - Present

- Built, redesigned and updated websites for a broad variety of small to medium-sized companies.
- Worked closely with a local marketing company, *4 Site Digital*, coordinating their clients' website needs. Consistently delivered professional-quality sites in a timely manner.
- Considerable experience in related fields, such as graphic design, e-commerce, SEO, social media and email marketing.

### Gig & Part-time Worker — Amazon, Postmates, Instacart, etc.

November 2008 - Present

### Political Intern — McCain Campaign

August 2008 - November 2008

- Assisted the Election Day Coordinator, primarily with phone-banking and data entry.
- Called and recruited volunteers and poll monitors.
- Coordinated Election Day policies of various counties.
